

# Company Quality Policy

Philip Wareing Limited is a transport company which deals in the transportation and delivery of a wide range of goods.

It is the objective of this Company to be able to provide a high quality of service and reliability to our customers.

We shall measure these objectives by analysing our on time deliveries and our customer complaints. To obtain this high level of quality we have established a quality system developed to international standards based on New Zealand's ISO 9001. Our quality system shall ensure that a high level of quality is maintained by following procedures in a consistent manner and is one which shall allow improvement.

Our employees understand our quality system and company objectives. They understand their responsibilities to the purchaser and shall endeavour to fulfil their requirements. We shall endeavour to maintain the highest level of health and safety and satisfaction for employees.
